Financial Sector

• Banking

Senior iOS developer

- Played a key role in supporting the old app version and migrating to the new version.
- Developed critical modules such as Transfers, Deposits, Credits, and Single Sign-On (SSO).
- Built additional features like My Car, Fundraising, Government Services, and Ratings.
- Integrated third-party SDKs, including MyID, into the application.
- Reviewed merge requests to ensure code accuracy and consistency.
- Maintained high code quality by adhering to SOLID principles.
- Managed the app release cycle, ensuring timely updates and improvements.
- Ensured a crash-free user rate of at least 96% annually, maintaining a stable and reliable app experience.

About me

I have over 4 years of experience in mobile development, with a strong focus on understanding requirement specifications, software design, coding, and maintaining applications. Throughout my career, I have developed a proven track record of building high-quality apps for both iPad and iPhone. My expertise includes critical thinking and problem-solving skills, which enable me to tackle complex challenges and deliver efficient solutions. My focus is always on creating user-friendly, well-structured apps that work smoothly from start to finish and beyond.
